PREMIER TECH, YOUR BUSINESS PARTNER!

Premier Tech has been marketing innovative horticulture products and services for 90 years. **Premier Tech Home & Garden (PTHG)** has a dedicated team capable of offering you first-rate customer service and value-added products that match the passion of your gardening clients.

OUR INSPIRATION? YOUR CLIENTS!

Your needs and those of your clients are what inspire us. They guide our innovations and continually push our teams to surpass themselves to drive the gardening industry forward.

PREMIER TECH IS...

- the very first ready-to-use growing media made of sphagnum peat moss, fertilizers and aggregates in America;
- a full line of natural products that enhance the growth and resistance of plants;
- the most comprehensive portfolio horticultural products in Canada.

COLLABORATING FOR SUCCESS!

The success of your business is at the heart of Premier Tech Home & Garden's actions. Our customer-centric approach means you benefit from personalized expertise and advice from a team dedicated entirely to you.

- A one-stop shop for all gardening products (growth supplements, growing media, grass seeds, fertilizers, control and specialized products)
- Centralized order desk
- A warranty program exclusive to independent gardening centres

**INDEPENDENT
GARDEN CENTERS**

is...

- INNOVATIVE PRODUCTS
- A TEAM OF DEDICATED EXPERTS
- PERSONALIZED SERVICES

Collaborating toward a flourishing business partnership!

OUR BRANDS

C-I-L® products have been greening Canadian lawns and growing beautiful gardens for over 50 years. Products of high quality and exceptional value that meet homeowners' needs today and tomorrow.

1920

1930

1940

For close to 90 years, PREMIER® has been a complete line of natural, organic soils and manure for a wide range of outdoor gardening activities!

Good for the earth... great for the garden! Green Earth® is the "natural" brand of gardening products that are environmentally friendly and safe to use. Green Earth® products are formulated with lower toxicity ingredients derived from botanical, mineral and animal sources.

The logo for SCHULTZ, featuring the brand name in white, bold, sans-serif capital letters on a green, wavy banner with a yellow border.

SCHULTZ®, a favorite gardening companion for over 50 years, builds on the popularity and success of its easy-to-use Liquid Plant Food, recognized for its famous 7 Drops® formula.

1950

1960

1970

1980

The logo for PRO-MIX, featuring the brand name in large, bold, black, sans-serif capital letters. A stylized green leaf icon is positioned between the 'O' and 'M'.

Launched in 1968, the PRO-MIX® line has succeeded in evolving to provide consumers with value-added growing media. Today, it is still considered as a reference on the market thanks to its ability to innovate and offer cutting-edge solutions.

The logo for C-I-L Golfgreen, featuring the brand name in white, bold, sans-serif capital letters on a green, wavy banner. Above the banner is a small orange oval containing the letters 'C-I-L' in white.

C-I-L® Golfgreen® is a fertilizer that uses professional quality (golf® quality) ingredients only to offer customers a high-performance product which provides the most remarkable lawns.

MYKE® is an all-natural product line formulated for the different steps of planting. MYKE® products are easy to use and safe for the environment. Several MYKE® products contain a biological growth supplement called mycorrhizae.

1990

2000

2010

...

WILSON™ Lawn & Garden Products - Bringing effective solutions to garden and household pest problems since 1880.

For over 50 years, Plant-prod® has been recognized for its superior quality water-soluble fertilizers.

OUR TECHNOLOGIES

Microscopic view of root with mycorrhizae

Microscopic view of root without mycorrhizae

MycoActive™ by PREMIER TECH

Is the signature to recognize the benefits of the "mycorrhizae premier tech" technology.

GROWTH ENHANCER

ENSURE FASTER ESTABLISHMENT

Roots with mycorrhizae spread within the available space twice as fast as roots that do no benefit from the technology.

REDUCE WATERING NEEDS BY 30%

The plant's root system is more developed and thus absorbs more water.

INCREASE SURVIVAL BY 75%

Roots with mycorrhizae have a greater capacity to absorb nutrients from the soil. Therefore, you get plants that are healthier, more vigorous, and more resistant to stress.

INCREASE PHOSPHORUS ABSORPTION TO THE DETRIMENT OF BLUE-GREEN ALGAE

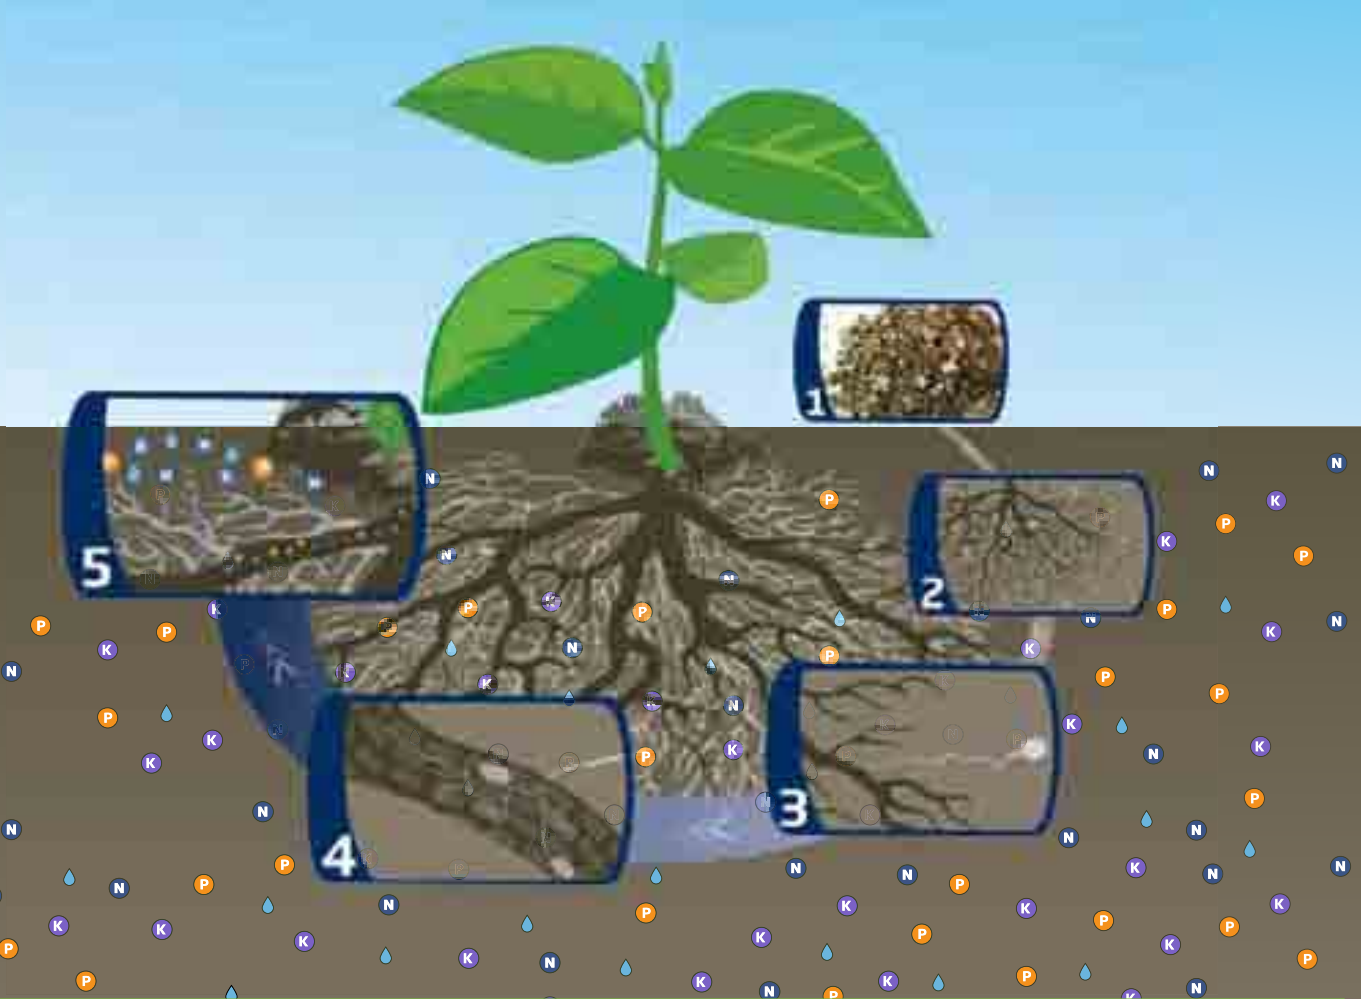

Roots with mycorrhizae can absorb **3 to 5 X** more phosphorus than roots without mycorrhizae.

IMPROVE SOIL STRUCTURE AND PREVENT EROSION

The root extension (filaments) provided by mycorrhizae holds soil particles together, which reduces erosion. Furthermore, by improving soil structure mycorrhizae allow better water penetration by about **25%**, thus slowing down erosion and stabilizing the soil.

A natural

SYMBIOSIS BETWEEN TECHNOLOGY AND PLANT

BENEFICIAL ALLIANCE

Mycorrhizal fungi have existed since the first plants appeared on dry land more than 450 million years ago. They form a close symbiotic relationship with plant roots. They are called mycorrhizae from the Greek *μυκή*, meaning fungus, and *ρίζα*, meaning roots.

Mycorrhizae form a network of filaments that associate with plant roots and draw nutrients from the soil that the root system would not be able to access otherwise. This fungus-plant alliance stimulates plant growth and accelerates root development.

However, in soil that has been disturbed by human activity, the quantity of mycorrhizae decreases drastically so that there are not enough of them to produce a significant benefit on plant growth and health, hence the importance to compensate for this lack.

D - DRY

Micro-static adhesion attaches to every particle so 100% of the fertilizer granules are coated.

D - DISPERSABLE

Iron is evenly and consistently dispersed wherever the granules land, resulting in a dramatically green effect to the entire lawn.

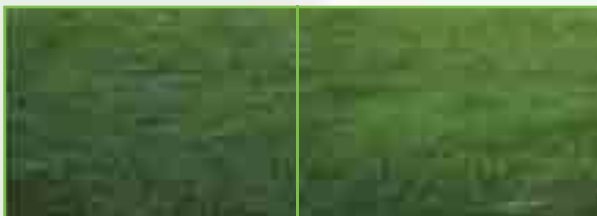

P - POWDER

Iron is immediately absorbed by the grass plants when watered, resulting in an ultra green effect within hours.

- NEW SOURCE OF IRON
- NON-STAINING
- ULTRA FAST, ULTRA CONSISTENT GREENING

UP TO 18% GREENER

Trials with lawn fertilizer showed: up to 18% more chlorophyll (measurable green pigment in plant tissue)

SURESTART® TECHNOLOGY

C-I-L® Golfgreen® Grass Seed with SureStart® Technology is a premium blend of grass seed with a patented micronutrient treatment for **successful seeding, GUARANTEED!**

SureStart® Technology delivers micronutrients right where the seed germinates to promote early seedling growth and better establishment!

- FASTER, MORE EVEN EMERGENCE
- ENHANCED EARLY PLANT GROWTH
- LARGER SEEDLINGS WITH LONGER, MORE DEVELOPED ROOTS

**GROWTH

185140	7 kg	12	6 21361 00121 7	350 m ² (3 767 ft ²)

WHAT IS THE DIFFERENCE?

EACH PRODUCT HAS ITS OWN FORMULATION ADAPTED TO THE SPECIFIC NEEDS OF VARIOUS TYPES OF PLANTS

TRANSPLANTATION

TREES, SHRUBS AND HEDGES (DECIDUOUS TREES & EVERGREENS)

FORMULATION
Natural coarse granular carrier (vermiculite, perlite and peat)

ADVANTAGES
Vigorous growth, drought tolerance and better survival

APPLICATION
Apply directly on the roots when transplanting. For established trees, apply the product along the drip-line, 4 cm (2 in) deep, in line with the crown

Ectomycorrhizae + Endomycorrhizae

TRANSPLANTATION

ANNUALS & PERENNIALS

FORMULATION
Natural coarse granular carrier (perlite and peat) that provides additional soil porosity

ADVANTAGES
Ensures long-lasting and luxuriant flowering

APPLICATION
Apply directly on the roots when transplanting

Endomycorrhizae

TRANSPLANTATION & SOWING

FRUITS, VEGETABLES AND HERBS

FORMULATION
Natural fine granular carrier (vermiculite and peat) that allows better seed germination

ADVANTAGES
Ensures abundant yield of superior-quality vegetables

APPLICATION
Apply directly on the roots when transplanting

Endomycorrhizae

MAINTENANCE & ESTABLISHMENT

LAWN CARE AND ESTABLISHING NEW LAWNS

FORMULATION
Natural heavy granular carrier that allows easy application (zeolite)

ADVANTAGES
Ensures quick rooting, increases drought tolerance and faster establishment

APPLICATION
Apply with a spreader once a year

Endomycorrhizae

Endomycorrhizae
associate with 7 to 10% of plants, most evergreen trees.

Endomycorrhizae
associate with 80% of plants, most deciduous trees and herbaceous plants.

WARRANTY PROGRAM

AN EFFECTIVE LEVER **EXCLUSIVE** TO
INDEPENDENT GARDEN CENTERS

INCREASE YOUR PROFITS

- Without cannibalizing any other product line you currently have
- With a complementary product line which could additionally increase your seasonal green goods sales volume
- Reduce your mortality rate by 75%* and, by the same token, reduce your losses by 75%
**The effectiveness of mycorrhizae increases plant survival.*
- Delivering a minimal 40% margin on all MYKE® GROWTH SUPPLEMENT Sales

FINANCIAL SUPPORT & NO RISK PROGRAM

The MYKE® WARRANTY PROGRAM covers 65% of the retail value of plants that must be replaced after the first year.

NO RISK PROGRAM

Ask about the NO RISK PROGRAM!

Basically, if by the end of the season you are not happy with the MYKE® SUPPLEMENT OFFER, we will take back any unsold product (only for a new season under the Warranty Program).

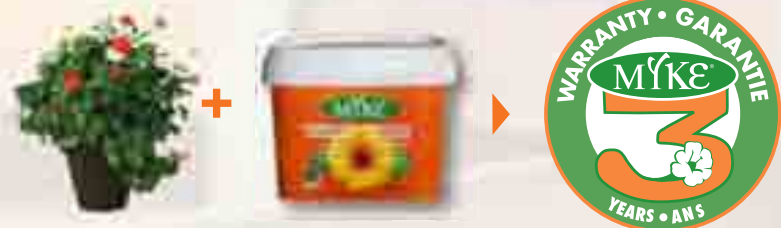

5 YEARS TREE & SHRUB

Add MYKE® TREE AND SHRUB Growth Supplement to plant purchases in order for your customers to get a 5-year warranty.

3 YEARS PERENNIAL

Add MYKE® ANNUAL & PERENNIAL Growth Supplement to plant purchases in order for your customers to get a 3-year warranty.

MARKETING TOOL & PROMOTIONAL SUPPORT

- Simplifies the sale (avoid technical speech)
- Improves customer satisfaction
- Builds customer loyalty towards garden center

MYKE® will support your seasonal business with the appropriate Staff Training & complete and attractive POP Retail Material. Ask about your COOP Advertising Program!

MERCHANDISING STRATEGY

Put the MYKE® products and promotional material in strategic places and increase the efficiency of promotion:

- Near cash registers
- With plants
- Other consumable goods

PRO-MIX®

GROW YOUR PASSION

PREMIUM QUALITY GROWING MIXES

TRUSTED BY PROFESSIONALS SINCE 1968

The easiest, most efficient way to meet all of your customers' needs. Attractive packaging and improved high-quality mixes.

Enriched with plant food which gradually releases nitrogen for up to 3 months, a key ingredient to grow.

Enriched with plant food which gradually releases nitrogen for up to 9 months, a key ingredient to grow.

MycoActive™ is MYCORRHIZAE, a natural plant stimulant which assists plants for nutrient and water uptake for improved plant growth and resistance to stresses.

Formulated with natural and sustainable coconut fibre that increases water holding capacity, reduces watering frequency, and helps protect plants from drought.

PRO-MIX®

OUTDOOR GROWING MEDIA

PRO-MIX® Potting Mix

- Suitable for potting and re-potting plants in containers
- Formulated with natural coconut fibre to safely hold and control moisture levels
- Contains a slow release fertilizer that feeds for up to 9 months
Components: Canadian sphagnum peat moss, coconut fibre (coir), perlite, limestone, slow release fertilizer, mycorrhizae

BIOMAX™ 3 in 1 Garden Mix

- Complete, multi-use planting mix
- Designed for outdoor application
- Encourages biological activity of soils
- Improves water-holding capacity and air porosity

Components: forestry compost, Canadian sphagnum peat moss, limestone, black earth, sand

CODE	SIZE	PALLET (40" x 48")	UPC
4 98724 1	35 L	65 bags	0 25849 08724 1

OUTDOOR GROWING MEDIA

Don't neglect your lawn...

because a healthy lawn helps the environment!

Here's why:

- Healthy lawns are the best prevention for runoff and water contamination. They absorb rainfall more effectively than a weedy lawn, 6 times more effectively than wheat fields and 4 times more effectively than a perennial garden.
- An average lawn produces enough oxygen for a family of four and reduces carbon dioxide in the process.
- On a hot day, lawns are about 15–30°C cooler than bare soil, patios or driveways.
- Good lawns are one of the safest (and softest) playing surfaces for children.
- Thick lawns discourage noxious weeds and rodents.
- Lawns create a serene backyard haven and help increase the value of your home.

CROSS PROMOTION OPPORTUNITY

Merchandise C-I-L® Golfgreen® Grass Seed with C-I-L® Golfgreen® Lawn Soil. The perfect complement to each other to establish a healthy green lawn.

Page 38

Enriched Lawn Soil

- Specially formulated to help grow your lawn
 - Ready-to-use, pre-mixed with fertilizer

FERTILIZERS

LAWN FERTILIZER PROGRAM

HOW OFTEN SHOULD I FERTILIZE?

Fertilizing 3 to 4 times a year will help keep your lawn thick and healthy. And that means fewer weed problems. Be sure to promptly repair any bare spots caused by weed and insect damage.

Not fertilized

Fertilized 1-2 times per year

Fertilized 3-4 times per year

1

EARLY SPRING
Fertilize and prevent
weeds from growing.

2

LATE SPRING
Fertilize to fix thin lawn
and shade out weeds.

3

SUMMER
Fertilize to help your
lawn hold summer
weather and insects.

4

FALL
Prevent fall weeds,
egg high yields
setback.

LAWN FERTILIZERS

Golfgreen® Lawn Fertilizer 22-0-5

- Guaranteed burn proof
- No need to water in
- Helps thicken turf to reduce weeds
- Phosphate-free

STORAGE

Min.: -40°C
Max.: 40°C

% SRN
40%

WHAT IS DDP IRON:

D - DRY Micro-static adhesion attaches to every particle so 100% of the fertilizer granules are coated.

D - DISPERSABLE Iron is evenly and consistently dispersed wherever the granules land, resulting in a dramatically green effect to the entire lawn.

P - POWDER Iron is immediately absorbed by the grass plants when watered, resulting in an ultra green effect within hours.

WATER SOLUBLE FERTILIZERS

Iron Chelate 7%

- Iron Chelate is formulated to correct or prevent iron deficiency in plants
- After treatment, yellowed plants quickly regain a healthy green colour and grow with renewed vigour
- Dissolves quickly, applies easily with hose-end sprayer, and won't burn

STORAGE

Min.: -40°C
Max.: 40°C

CODE	SIZE	PALLET (40" x 48")	UPC
6 21145 0	12 x 350 g	110 cases	0 69889 21145 7

All-Purpose Water Soluble Plant Food 20-30-20

- Recommended for all plants
- Quality fertilizer for outstanding results
- Includes micro-nutrients

STORAGE

Min.: -40°C
Max.: 40°C

CODE	SIZE	PALLET (40" x 48")	UPC
1 80021 0	12 x 283 g	180 cases	0 72845 01128 2

House Plant Fertilizer 15-15-18

- Specifically developed for tropical house plants
- Formulation provides balanced nutrition throughout the year
- Contains a form of nitrogen that is very effective under typical household light conditions

STORAGE

Min.: -40°C
Max.: 40°C

Later's™

LAWN WEED CONTROL

Clear Choice Weed Killer

- Significantly reduced chemical load
- Fills a need for consumers looking for an effective control with less toxicity
Guarantee: 2,4-D - 0.47 g/L; Mecoprop-P - 0.3 g/L; Dicamba - 0.058 g/L

STORAGE

Min.: 5°C
Max.: 35°C

THE UNIQUE TECHNOLOGY BEHIND CLEAR CHOICE

- Utilizes patent-pending technology.
- A unique blend of pure synthetic isoparaffins and technologically advanced surfactants results in improved efficacy.
- Clear Choice is a new reduced risk selective herbicide targeting broad-leaved weeds.
- The manufacturing process creates nano-sized droplets that allow for more efficient transmission of the active ingredients to the plant.

MICROTECHNOLOGY - HOW IT WORKS

Due to the smaller particle size formulation of Clear Choice, it is more easily absorbed by the pores of the weed making it as effective as traditional herbicides even with 85% less active ingredients.

Traditional herbicides

BUSTERS NEMATODES - NATURE'S PEST CONTROL!

Nematodes are microscopic organisms that are completely harmless to non-target species and naturally present in soils. When the target pest is reduced, nematodes die and do not persist in the soil.

EASY TO APPLY:

- Water lawn
- Mix nematodes with water in Green Earth® Grub Busters® Hose-End Sprayer
- Attach to hose and spray

UNIQUE ZERO-WASTE PACKAGING!

- Package and label are made from new 100% biodegradable potato/rice-based materials

PRODUCT SAFETY & FIRST AID

**FOR PRODUCT RELATED INFORMATION AND
IN CASE OF EMERGENCY CALL 1 800 268-2806**

EMERGENCY SUPPLIES

Keep the following minimum supplies readily available

Rubber or Neoprene Gloves	(2 pairs)
Rubber or Neoprene Overshoes	(1 pair)
Absorbent Material i.e., cat litter etc.	(1 large bag)
Detergent strong household type, Tide, All, etc.	(10 lb or 2 qt.)
Disposable Pail with lid	(5 gal.)
Disposable Plastic Bags heavy-duty garden type	(2)
Broom household type with natural bristles	(1)
Scoop Shovel	(1)
Fire Extinguisher rated for A, B, & C type fires	(10 lb)

PESTICIDE/FERTILIZER SAFETY RULES

PTHG PRODUCTS ARE MANUFACTURED TO EXACTING, SCIENTIFIC STANDARDS. ALWAYS APPLY AS DIRECTED ON THE LABEL FOR SAFE HANDLING & EFFECTIVENESS.

- Purchase only DOMESTIC class products.
- READ THE COMPLETE LABEL BEFORE USE. Pay close attention to package warning symbols - eg., Flammable, Explosive, Poison, etc.
- Follow label directions exactly. Measure, do not guess.
- Apply only when required and at recommended application rates.
- Apply only to those plants /crops listed on the label.
- Observe the "no-spray" interval before harvest for fruits and vegetables.
- Store pesticides in a safe place, out of reach of children and pets and preferably locked. Never in proximity to food or beverages.
- Do not spray pesticides on windy days. Wear chemical resistant gloves and goggles while mixing & applying pesticides.
- Use separate sprayers for herbicides and insecticides/fungicides. Do not leave sprayers unattended while spraying.
- Keep children and pets away while applying pesticides and do not let them return to the area until it has thoroughly dried.
- NEVER transfer pesticides out of their labelled container.
- Use garden chemical measuring devices. Do not use kitchen utensils.
- Wash equipment after use.
- Never reuse empty pesticide containers. Check label for appropriate disposal instructions. Some empty containers may be recyclable.
- To dispose of unwanted pesticide product, contact your regional government Household Hazardous Waste Department.
- Wash hands and face with soap and water after applying pesticides and before eating or smoking.
- Wash fruits and vegetables before eating.

IN CASE OF ACCIDENTAL CONTACT

Eyes

- Flush with water for 15 minutes.
- Get medical attention immediately.
- Refer to product label for further instructions.

Clothes

- Remove contaminated clothing and wash skin thoroughly with soap and water.
- Refer to product label for further instructions
- If in doubt about nature of material, get medical attention immediately.
- Wash clothing separately in strong detergent before reusing.

Hands

- Wash thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material get medical attention immediately.

EMERGENCY PROCEDURES

- 1 Isolate area. Keep people away. Barricade aisles.
- 2 Ventilate area. Do not breathe vapors. Open doors and window. Set up fan. Close return grills on air conditioners.
- 3 Keep fire sources away.

STOP

IN CASE OF SPILL, CONTACT YOUR LOCAL, PROVINCIAL OR FEDERAL DEPARTMENT OF ENVIRONMENT

- 4 Put on rubber or neoprene gloves & overshoes.
- 5 Ready fire fighting equipment.
- 6 If a liquid - absorb until dry. Contain liquid around edges. Sweep absorbent from edges toward the middle. See "Emergency Supplies" for recommended materials.
- 7 Carefully place absorbent or spilled dryproduct in disposable containers.
- 8 Scrub spilled area with concentrated detergent using broom. Absorb and pick up per steps 6 and 7. Discard soaked materials and merchandise. Scrub lightly splashed items. Scrub out corners and crevices.
- 9 Dispose of sweepings, broken product containers, broom, other contaminated waste in accordance with recommendations of local health authorities.
- 10 Wash gloves, overshoes and shovel with strong detergent solution. Remove clothing & wash separately in detergent.

Call a doctor or Poison Control Centre immediately if poisoning occurs. Retain packaging for chemical reference. Carefully follow label directions for first aid.

NOTE: Take container, label or product name and registration number with you when seeking medical attention.

Safety & Technical Support: PTHG recommends your staff and customers familiarize themselves completely with our products by READING THE PRODUCT LABELS before use. Should questions arise, contact the Regional Office closest to you.
